

Semester Tender Project

Part C: Estimate and Value Engineering

Due: Ilearn Portal Dropbox Due Date: See Submission
folder in D2L

Assessed for Completeness

Semester Tender Project Part C: Estimate and Value Engineering

Purpose: As part of our Learning Outcomes for CPM220, we will conduct an Estimate for the Semester Project. The Estimate will be produced using the following instructions, scenario, and construction drawings. This assignment will be graded for completeness, please see the attached grading sheet. You have been tasked, as the Project Manager for this project to conduct a Complete Estimate for the construction of the Pumping Station Project.

Your Objective for this assignment is as follows:

1. Complete a detailed Estimate for your term project.

Instructions: Using Lesson 5 & 6 Power Point Presentation, create an Estimate for the project attached to this document. Your Report should include the following:

1. Complete Estimate

Grading: This assignment is graded out of a total of 50 points for completeness. This assignment is weighted at 3% of your 40% total grade of CPM220. Please see attached grading document.

Due: Due: Ilearn Portal Dropbox Due (See cover Sheet). Late submissions will be graded with a 25% penalty. There will be no further submission dates for this assignment.

Notes: Be careful, all copying and “copying and pasting” will be graded with a “0” for this entire assignment and the assignment will be submitted to the Dean for review. I am interested in your work and having you succeed as a Construction project Manager, not simply what you can copy and paste from the internet.
